

## GFAA 2024-25 Junior Tournament Online Entry Program

GFAA has developed an Online Entry and Reporting program. The program enables Junior Anglers to register online. Registration is a two-stage process that firstly requires email activation from the entrant's parent or guardian. At this stage the login is valid but ineffective as the only option is to logout.

Access to information in the system requires final approval by the local Junior Coordinator (who will be notified of the registration). After Coordinator approval entrants will be able to view all Tag & Release and Captures and will be able to add their own T&R and Captures online.

Following the addition of a new T&R or Capture the Junior Coordinator is notified and the record will be visible to the entrant and the Junior Coordinator. The Junior Coordinator will need to verify the record and assign points once in possession of the required documentation.

Once the Coordinator is able to verify the T&R/capture, they will allocate points and verify the record. The record will then be visible in the public section of the GFAA Junior website.
